**Cretschmar-NAVIS:  
Specialist for worldwide  
seafreight.**

The markets are becoming more global and the demand from industry and trade for professional seafreight servicers is growing. CRETSCHMAR-NAVIS in our capacity as seafreight forwarders, offer speedy transport connections to all Continents and major economic centres of the world.

Whether to and from Asia, North and South America, Africa, Oceania and Europe – our aim is to deliver your imports and exports safely and punctually to their destination.

As we are a member of the Sea Transport Alliance, together with our overseas partners, we can provide a more efficient and customer-orientated service.

**A Network of professional partners.**

Whatever worldwide destination is to be reached your cargo is in good hands with CRETSCHMAR-NAVIS

At all European and overseas destinations, reliable transport and logistic professionals are on hand to look after your needs and the onward shipment of your products. This service is available through our chosen partners situated at 80 locations throughout the world.

**Four registered ports in Europe.**

We have four seaports available to us, Hamburg, Bremen, Rotterdam and Antwerp. At these ports we have our own depots and use our own container consolidation service and our European traffic system to deliver your goods. To enable you to know, on which land or sea route your shipment is, we provide modern technical communications with DFU, E-mail and Internet with which you are to connect.

**Come on board.**

Contact us for information on a new dimension in seafreight services.

Come and talk with us and find out with which transport concept would be best suited to your worldwide business requirement.

Use the efficient services of our forwarding operation as a competition factor in global business.

The service makes the difference.
