THE Specialist...

***...for your
logistics solutions***

We know what's important in the automotive industry!

NO! We can't install this spare part into a car. We don't even know where the ball bearings belong. For this we lack the know-how in this area, even though we've had the VDA 6.2 certification since 2002.

Despite this, we can claim to be **THE specialist** for your logistics solutions in **Maghreb** (Libya, Tunisia, Algeria, Morocco).

For decades we've been present in the North African markets and maintain customs and logistics warehouses in Casablanca, Tangier, Algiers, Tunis, Sousse and Sfax.

For the transportation to those destinations we'll find the best solution for your shipment as well. Whether by ship, truck or airplane.

We offer you the best possible service, individual and flexible transportation processing – customized and tailored to your needs.

Contact us to find out what possibilities we have to offer!

YES! You can be certain that we know what's important in the automotive industry. Many of your subject-area colleagues already rely on us.

NAVIS company group:

NAVIS® Schiffahrts- und Speditions-Aktiengesellschaft is a group of companies active in all areas of national and international freight forwarding services. Established in 1956 in Hamburg NAVIS is now present with own branches in Bremen, Hanover, Freiberg (State Saxony), Rotterdam (The Netherlands), Antwerp (Belgium) and in Barcelona (Spain).

The success of our independent family operated company is characterized by spirit of fairness, cooperation and even friendship to costumers and partners since decades.
