Subject:- covid -19 update

Dear partner,

As you may or may not know from Saturday 07.11 a three week lockdown restriction is imposed in Greece.

The movement of people is restricted and is only allowed with SMS for special cases or with employer certification.

Restrictions are imposed in restaurants and bars, retail, High Schools and Universities. Wholesalers, Manufacturing, hotels, and elementary schools are open.

The operation of retail (excluding retail stores for food, such as super-market, mini-market, etc., as well as pet shops), hairdressers and personal hygiene services is suspended.

Catering facilities (restaurants and bars) have suspended their operation and only delivery and take away services are allowed.

The grocery stores are open until 20:30, and it is planned that they will stay open for the weekend.

Operation of playgrounds and amusement parks / theme parks is suspended.

Between 21.00 and 5.00 no traffic is allowed except for work or other urgent matters.

Movement of goods is not affected.

Our domestic network will be fully operational with some delays; hence, our agreed Transit Times might not be respected.

As far as the operation is concerned please check with your operational contact the availability of the delivery point. In case of closed or unavailable delivery points, fees might be applied.

Stay Healthy and Safe

Kind regards

Wilfried Becker
Director - Road Network
